

# Central Oregon Economic Indicators

September 2021 Edition

(August 2021 data)

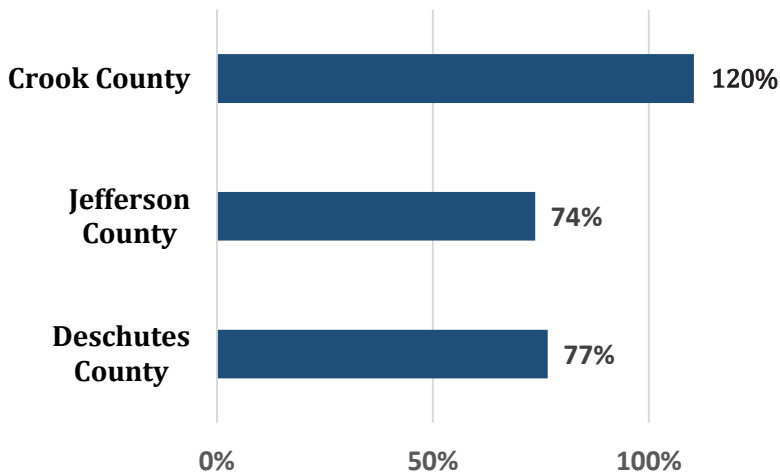

## Local Area Unemployment Rates (Seasonally adjusted)

## Graph of the Month

Share of Initial Job Losses Gained Back

Source: Oregon Employment Department

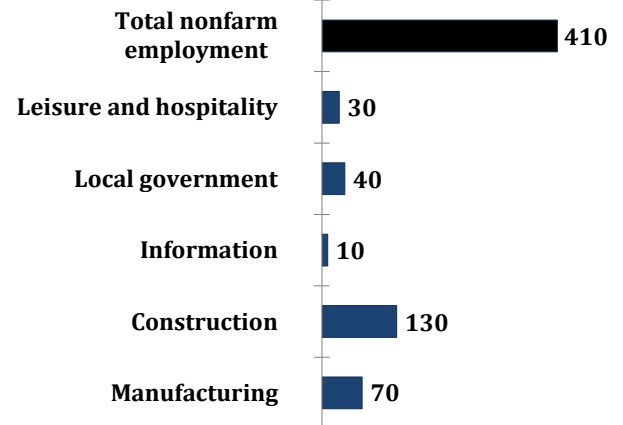

As the labor market supply has tightened to levels similar to pre-pandemic levels, job gains have slowed. In fact, hiring across all three counties underperformed normal seasonal expectations in recent months.

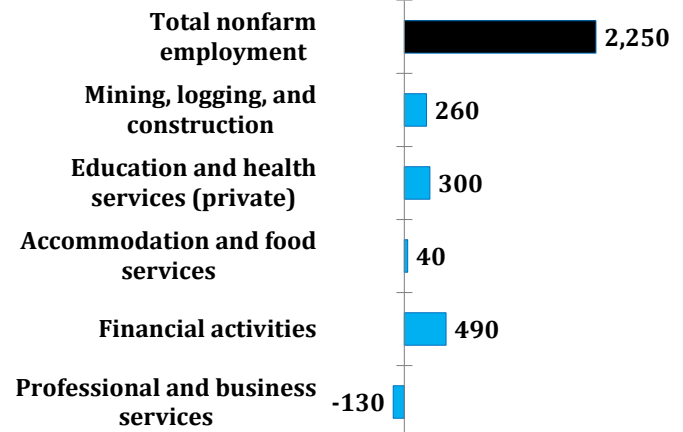

Each county has reached a different milestone in its respective economic recovery. Crook County has fully recovered from its initial job losses with 2% more jobs than it had in February 2020, while Jefferson County has regained 74%, and Deschutes County has regained 77% of its initial job losses.

## Select Industry Gains and Losses (Over-the-year net employment change)

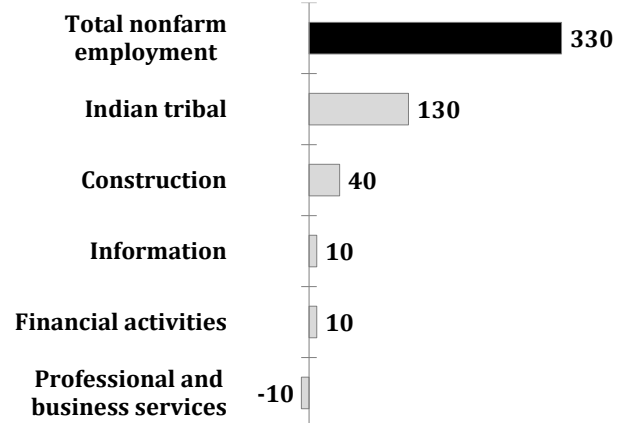

### Crook County

### Deschutes County

### Jefferson County
